EDUCATION

University of Michigan, Ann Arbor, MI (School of Literature, Science, and Arts)

Expected May 2027

Bachelor of Science in Data Science

Southern Methodist University (SMU), Dallas, TX, (Lyle School of Engineering)

Attended August 2023 – May 2024

Computer Science Major, Data Science Major

WORK AND PROJECT EXPERIENCE

Michigan Real Estate Club Analysis Project | Ann Arbor, MI

January 2025 – May 2025

Analyst

- Designed a \$100M mock real estate investment portfolio, pairing multifamily assets in Salt Lake City, Frisco (TX) with industrial assets in Houston, projecting a debt-service coverage ratio of over 1.25x
- Identified budding markets through CoStar analysis, targeting regions with over \$500M in recent capital investment and declining vacancy rates, prioritizing assets projected to grow 3–5% annually
- Outlined investing strategy to 25+ faculty advisors and club members, emphasizing risks, projected returns in each market, and debt-equity structures, leading to an adoption of yearly mock projects

Beta Realty | Dallas, TX

June 2024 – August 2024

Property Operations Analyst

- Resolved IRS audit inquiries for 10+ former tenants and properties by compiling and submitting historical files to ensure full legal compliance
- Managed a portfolio of 20+ assets, overseeing paperwork, maintenance requests, and key systems for 700+ properties
- Created a new filing system to replace a disorganized setup, where files were frequently misplaced or stacked on the floor, resulting in a 50% improvement in retrieval time

SMU US Olympics Gymnastics Team Success Model | Dallas, TX

January 2024 – May 2024

Analyst

- Developed a plan to clean 10,000+ athlete data points for model development, establishing a dataset for future roster plans
- Engineered an elo based model using Python to forecast podium probable rosters, achieving an 85% success prediction rate
- Delivered findings to a panel of esteemed professors and department leaders, securing funding for upcoming projects

Dallas Asian American Historical Society | Dallas, TX

May 2023 – September 2023

Design and Operations Intern

- Curated artifacts for 4 exhibit projects for an art showcase celebrating the growth of Asians in Dallas, contributing to record community turnout and recognition from local news outlets
- Plotted all Asian restaurant locations in Dallas during the 1890s on a map, highlighting a new perspective on the impact of Asian Americans to early Dallas growth
- Led resolution of critical issues regarding the development of two art pieces – including precise installation and assembly of 888 small paper figures and the hanging and preservation of a tapestry wall mural

LEADERSHIP AND ACTIVITIES

SMU Statistics and Data Science Club | Founder, President

September 2023 – May 2024

- Founded and grew the club to 200+ members and 15 involved faculty through social events, secured annual funding from SMU's student affairs center
- Directed 4 student led research projects on topics ranging from sports analytics to predicting virus spread, providing project design and presentation tips to prepare members for future opportunities
- Planned and hosted seminars, job fairs and workshop with speakers from SMU faculty and Fortune 500 companies, bringing professional networks to campus for members

SMU Asian Council | Freshman Chair

October 2023 – May 2024

- Organized large-scale cultural events, including an annual music festival featuring local Asian artists, while also contracting external vendors for food, entertainment and event logistics
- Led fundraising efforts that generated \$1,000+ to support programming, workshops, and social events, allowing for a 100% increase in funds available for the club's annual end of year banquet

SMU Program Council | Associate Member

February 2024– May 2024

- Managed campus-wide student events such as SMU's annual food festival, attracting 1500+ attendees and bringing together students, clubs and faculty
- Engaged and coordinated with external vendors and entertainers; overseeing event setup and logistics; bridging communication between vendors and volunteers for successful execution and community event satisfaction
- Analyzed data from past events to identify trends and inefficiencies, recommending changes to event entry processes resulting in a 10% increase in attendance

ADDITIONAL INFORMATION

- 2x Texas High School Hockey State Champion
- Avid sports enthusiast; Big fan of golf, hockey, and football
- Volunteer for the local hockey program to teach younger kids the game of hockey
